

1- HeaderView

```
private var selectedTags: [String]!

func showHideFilterSearchMikeOption(show: Bool,
masterName: String? = "", title: String? = "",
delegate: SearchHeaderDelegate? = nil,
optionDelegate: DropdownHeaderDelegate? = nil,
optionArray:[String]? = [], selectedTags: [String] =
[]) {

}
```

Set this selectedTags to SEFilterData

2- SEFilterVC

```
private var selectedTags: [String] = []

private func setTags() {
    for items in tags {
        tagView.addTag(items).isSelected =
selectedTags.contains(items)
    }
}
```
